

AGENDA
CLARK COUNTY COMBINED HEALTH DISTRICT
BOARD OF HEALTH
June 16, 2022
6:00 p.m.

1. Call Meeting to Order
2. Roll Call
3. Minutes of the May 19, 2022 Meeting
4. Activity Reports:
 - A. Nursing Division (*Christina Conover*)
 - B. Environmental Division (*Larry Shaffer*)
 - C. Early Childhood Division (*Lori Lambert*)
 - D. Women, Infants & Children Division (*Emily Thomas*)
 - E. Vital Statistics (*Shannon Hackathorne*)
 - F. Financial Report (*Lindsey Hardacre*)
 - G. Legislative Update (*Charles Patterson*)
5. Monthly Vouchers (*Charles Patterson*)
 - A. Payment Approval
 - B. Transfers/Advances, *if necessary*
 - C. Then & Now Requests, *if necessary*
6. Public Comment
7. Special Report
8. Old Business
 - A. Declaration of Tax for Nuisance Abatement - 517 Neosha (*Larry Shaffer*)
9. New Business:
 - A. Sewage Variance Request (isolation distance) – 2842 Evergreen (*Larry Shaffer*)
 - B. Possible Nuisance – 851 Corvette (*Larry Shaffer*)
 - C. Cisco payment approval (*Lindsey Hardacre*)
 - D. Mileage reimbursement (*Charles Patterson*)
 - E. Out of State Travel (*Charles Patterson*)
 - F. IT purchases - UPS's (*Chris Cook*)
10. Health Commissioner's Comments
11. Execute Session – if necessary
12. Additional Business – if necessary
13. Next Meeting Date – Monday, July 11, 2022 Special Board Meeting for Retire/Rehire and Sewage Variance

Adjournment

Clark County Combined Health District
Board of Health Minutes
May 19, 2022

President Dala DeWitt called the May 19 21, 2022, Clark County Combined Health District Board of Health meeting to order at 6:01 p.m.

Board members present: Catherine Crompton, Dala DeWitt, Dana King and Scott Griffith.

Board members absent: Valerie Moore, Bernadette deGuzman and Tyler Walters.

Staff present: Charles Patterson, Health Commissioner; Larry Shaffer, Environmental Health Director; Christina Conover, Director of Nursing; Lori Lambert, Early Childhood Director; Emily Thomas, WIC Director; Shannon Hackathorne, Administrative Assistant to the Health Commissioner; Lindsey Hardacre, Fiscal Officer; Chris Cook, Assistant Health Commissioner; Stephanie Johnson, Emergency Preparedness Coordinator; Nate Smith, Communications Coordinator and Megan Davis, Registered Environmental Health Specialist.

Guests: Arthur Solomon, citizen and Zac Frederick, citizen.

Minutes: The minutes of the Board of Health meeting held on April 21, 2022, were approved as submitted.

Activity Reports

Nursing: Ms. Conover said that we are at 95,597 COVID-19 vaccines for the health district. She said that we have seen a small surge this month, which we suspect is due to the change in the eligibility recommendations for boosters.

Ms. Conover said that we have several open positions right now and thanked the staff for their hard work and accommodating changes in programming.

Ms. Conover said the visits for the Children with Medical Handicaps program continue to stay above average. She said that the staff are doing a wonderful job and the program is doing well. She said the billing has always been difficult for this program, however, having full-time staff in the program is helping with the billing challenge as well

Ms. Conover said that we are picking up additional lead screenings and lead. She said that other providers are increasing screenings and we are starting to see those referrals and Ms. Randilyn Belford is then able to increase case management visits.

Ms. Conover said that PREP, which is prophylaxis for persons who are at high risk for HIV (Human Immunodeficiency Virus), has started in our sexual health and wellness clinics.

Ms. Conover said that we are continuing to watch our risk for tuberculosis and have leads on a couple cases not reflected on the report due to coming in this week and we will be looking at those as the individuals are released.

Environmental Health: Mr. Shaffer re-introduced Ms. Megan Davis. He said that Ms. Davis has further developed and improved our food safety program by continually demonstrating proficiency and serving as a resource to guide other staff in the program. He said that Megan has been integral in the evaluation of our programs including the swimming pool program by using accepted principles of continued quality

improvement. He said that she is in the process of learning to implement and serve as a subject matter expert in our household sewage treatment system program to allow her supervisor to focus on other duties. He said that she has developed relationships that enhance the achievement of our public health goals with clients and persons from other agencies. He said that she has notably improved the health district's relationship with the City of Springfield Fire department and City Community Development department through her work with food service operations and those who wish to make substantial changes to the food service operations. He said that she can independently plan work and achieve deadlines as demonstrated by having a perfect record in completing inspection requirements in assigned environmental health programs. He said that she can provide meaningful input when asked for improvement and policy and we all enjoy working with her and appreciate her hard work.

Mr. Shaffer said that we are in the midst of fulfilling our contract with the Ohio Department of Commerce by wrapping up the inspections of manufactured home parks and will begin campground and seasonal swimming pool inspections this month. He said that he is pleased to announce that he has accepted a second term with the Ohio Department of Commerce- Manufactured Homes Advisory Council. He said the Department of Commerce had just been given authority over manufactured homes during his first term and he was able to provide input from public health as they revamped the rules for manufactured homes. He said that we do have four (4) swimming pools that have not submitted a license application or were late and owe a late fee as required by the Ohio Revised Code so we will work with them to resolve that issue.

Mr. Shaffer said that we are beginning the mosquito program and have hired Ms. Bansari Kheni and hope to introduce her next month. He said that she is a graduate of Wright State University and will work this summer as an intern. He said that we have three (3) employees with pest control licenses and the Ohio Department of Agriculture was here a few weeks ago and gave us a positive report on their evaluation of our records for the application of mosquito control products. He said the mosquito program is paid for with a grant from the Ohio Environmental Protection Agency.

Early Childhood: Ms. Lambert said that because we did 4,519 Help Me Grow visits last year it is important that we follow the quality assurance activities and part of quality assurance is that each home visitor gets 1.5 to 2 hours of individual supervision each week, participates in a reflective group session each month, is shadowed in the home visit by the supervisor with feedback and phone and written surveys completed with families once a year. She said that we are always pleased to share those surveys with the home visitors because they are doing a great job. She said we ask things such as is the material interesting and easy to understand, are the goals that we set important to our family and does my home visitor respect my family traditions and values. She said we ask a lot of questions and what they like best about the program. She said that the number one answer is my home visitor because that relationship they build is what helps improve families. She said monitoring child development was the #2 thing done with the home visitor such as talking about development, discussing goals for the family and talking about things that are bothering them. She said that is a great asset to the program. She said she then gets to share all the comments about them from the families which is a great time for the home visitor to reflect on the value they bring to our families.

WIC: Ms. Thomas said that the WIC program continues to see a massive effect on participating families due to the formula shortage crisis. She said according to the National WIC Association, the program serves 1.2 million infants who receive formula benefits. She said that locally our office is fielding calls from parents unable to locate formula with many searching across the state. She said that staff have been

working closely with participants to help them locate their formula by working with physicians and vendors. She said the WIC state office has been working with the USDA and been in constant contact with Ohio's contract formula company, Mead Johnson. She said they are working towards ways to make more formula available to families in need and there is legislation in the works to open additional flexibility to what is currently in place. She said that as these flexibilities become available our staff relays the information to participants and physicians. She said that this is a major crisis worldwide.

Ms. Thomas said that our total participation is over 3,000 so there is a need for WIC services. She said that we have not seen the participation number above 3,000 since 2017. She said that we did submit the WIC grant today for FY23.

Health Planning: Mr. Cook referred to the Minority Health Fair photographs included in the board packet. He said this was the 5th annual minority health fair on Saturday, April 30th that lasted three (3) hours, but showed us that three (3) hours once a year is not enough. He said that our minorities and those underserved in our community need and deserve additional services which is one of our goals at the health district. He said that we had 42 vendors, which was fantastic and had many people coming through the entire three (3) hours. He said that we had blood pressure, vision, lab work, health screenings and physicians on hand to answer questions. He said this was a great event. He said that we have done an after-action report and have some ideas to work towards improving the event next year.

Mr. Cook said that we are on task and our timeline on publishing the community health assessment in July. He said the data collection is complete and it is now a matter of ensuring everything is formatted correctly, which our epidemiologist team is working very hard and doing a great job. He said that we have shared our resources with Champaign County and meet with them every week to share experiences during this cycle to learn from each other which is beneficial for both counties.

Mr. Cook referred to the wellness wheel included in the board packet which is being used by Mr. Jerry Newport, our workplace wellness coach. He thanked Ms. Lambert as she brought this tool to the team as something she had used in the past. He said that this is just one of the components that we have decided to reinvest in staff to offer them something in the workplace on work time to meet with Mr. Newport to talk about their workplace and life goals. He said that to date, 67 of our employees have had or have scheduled a first visit with Mr. Newport and 15 have already scheduled follow-up visits. He said the program is going well and we are excited to be able to offer this to the staff.

Mr. Cook said that he provided staff with an update on COVID-19 on Monday and interestingly there are already changes as of today. He said on Monday our two (2) week average of case rates in Ohio was 206 per 100,000. He said the numbers are updated every Thursday and we are now at 269 per 100,000. He said for context our lowest at the end of March was 37 per 100,000 and during our Omicron peak around mid-January we were at 2,154 per 100,000 in Ohio. He said this increase is something that we are paying attention to. He said in Clark County our two (2) week average case rate on Monday was 127.5 and as of today it is 195 per 100,000. He said we have had 11 new hospitalizations in the last week and our testing positivity rate to start the week was around 9% and has jumped to nearly 11%. He said that just before the meeting he looked at the wastewater data accessible to us in Ohio from one of the projects across the nation with Ohio being a leader looking at wastewater for early detection when seeing rising cases and we have seen a steady weekly increase in detectable COVID-19 remnants in our wastewater since April. He said that our vaccination success continues, and Ms. Conover mentioned us nearing that 100,000 number, but each one of those numbers as we progress to that 100,000 is something we need to pause and realize how we are impacting people's lives. He said the Centers for Disease Control (CDC) just rolled

out a new data chart on vaccine effectiveness which is something we have looked at for influenza vaccines over the years. He said unfortunately this year was not a good match to the influenza strains, but fortunately it has not been an intense influenza season that we are exiting. He said one of the things the CDC is trying to capture is how effective the vaccines have been. He said the site shows this data for all ages and it is interesting to see how effective these vaccines are for our youth. He said the COVID-19 vaccine is phenomenal at preventing severe illness, hospitalization and death.

Vital Statistics: Ms. Hackathorne said that there is nothing new or unusual to report this month.

Financial Report: Ms. Hardacre said that all quarterly and monthly reporting has been submitted to the state and some of the payments are reflected in the report. She said that we have a few funds in the negative. She said that we brought a few transfers and advances last month, however, those have not been completed by the county auditor's office. She said that she has asked that the transfers and advances been completed retroactively to the date they were approved, and we hope that these will be reflected next month. Mr. Patterson said he wanted to point out that the auditor's office is in disarray and we are not the only entity having trouble getting bills paid on time, which is starting to bring late fees. He said that we understand there has been turnover issues and the staff at the auditor's office are doing the best they can but we are beginning to see an accumulation of problems. He said that some new staff are being trained and hopefully that will help eliminate the current crisis at the auditor's office.

Legislative Update: Mr. Patterson said that HB463 and the companion bill in the senate both had proponent and opponent testimony in the past three (3) weeks. He said the Ohio Township Association came out very strongly against doing away with the District Advisory Council (DAC) that appoints four (4) of our seven (7) Board of Health members. He said the bill intends to eliminate the DAC and replace those appointments with the county commission appointments. He said that we are working against those changes and Mr. Walters talked with one of the sponsors and he indicated to Mr. Walters that he felt that this had wings and would fly through the process. He said that the AOHC, Association of Boards of Health, Municipal League and the Township Association are working to stop this bill from moving forward.

Vouchers: Ms. Hardacre presented the bills.

R 47-22 A resolution approving payment of the bills from April 1, 2022 to April 30, 2022.

Public Comment: none

Special Report: none

Old Business: none

New Business:

Variance Request – 1601 East Home Road: Mr. Shaffer said that 1601 East Home Road is located within the City of Springfield. He said the home was built in 1960 and has three (3) bedrooms and two (2) bathrooms. He said that we believe the septic system is original to when the home was built. He said that Zillow estimates the value to be \$98,000 to \$114,000 and indicates the property sold in April for \$105,000, however, the Clark County auditor's website has not been updated to confirm the sale price. He said the Zillow value is heavily influenced by the recent sale. He said the buyer is Mr. Aurthur Solomon doing business as Comfort Living LLC and he purchased the property as an investment. He said that Mr. Solomon has indicated a financial hardship and has requested a variance from Ohio household sewage treatment rules that prevent issuing an operation permit when public sewer is available. He said that Mr. Solomon has presented three (3) cost estimates for connection to public sewer with the first being in the amount of \$14,200, the second in the amount \$10,240 and the third indicates the cost not to exceed \$9,000. He said the City of Springfield has made the owner aware that they will make \$3,500 available to assist with connection to sewer. He said the City of Springfield reports the public sewer line already has a stub connector and is in good repair and they anticipate a routine connection to sewer as the sewer is on the same side of the road as the home. He said it is a straight line from the house to the sewer. He referred to the diagram of the property, estimates and a public health ethics review included in the board packet. Ms. DeWitt said with the \$3,500 assistance from the city going with the lowest bid it looks like the cost will be around \$5,500.00. She asked Mr. Solomon the value of the property. He advised that they believe it will value around \$175,000 once it is completed. Ms. DeWitt said that in the past the board looked at the cost of the connection versus the value of the home to determine a hardship. She said with this being a straight line from the house to the sewer and a cost of \$5,500 this does not appear to be a hardship. Mr. Solomon said that the realtors had a meeting with Representative Kyle Koehler and his understanding from that meeting is that unless there is something wrong with the septic system there is no reason to connect. He said there is no added value for connecting and would be a useless expense and asked that this be considered. Mr. Patterson said that is initially why we had the meeting with Representative Koehler to ask him to consider changing the law as the law now requires the property to be connected unless there is hardship. He said that Mr. Koehler asked if we grant a variance at the meeting in German Township and we advised that we do grant them, but only under a hardship case. He said the cost of replacing this septic system would be far more than the cost to connect to sewer, which is why we reached out to Representative Koehler regarding this law. He said this is exactly what we wanted to prevent by having him change the law to say if there is an existing sewer line and the septic appears to be working, we would be able to issue a permit for the system to continue to operate. He said unfortunately this is not covered under the current law, so the board must make the decision to determine if the cost to connect a financial hardship or is there a technical issue, which is not an issue for this connection. Ms. DeWitt asked if the homeowner has any other options. Mr. Shaffer said the issue is whether we can issue an operation permit. He said that Mr. Solomon has asked for a real estate septic inspection indicating everything is satisfactory, but we cannot do that if we cannot issue an operation permit, so he has requested a variance. Mr. Griffith asked for confirmation that we cannot issue the operations permit because it does not meet rules under law. Mr. Shaffer confirmed that this is correct and that the board can grant a variance based on financial hardship or technical difficulty. Ms. DeWitt said that our options are to grant a variance, ask the homeowner to connect or not issue an operations permit which he must disclose to the buyer. Mr. Shaffer added that 62 years is a long time for a septic system. Dr. Crompton said that it is a hard decision, but they are stuck between the law and their hearts, and the law does not allow variance unless it is a hardship. Mr. Griffith said the definition of financial hardship is the question and if Mr. Solomon is going to fix the home up for sale it is going to lower the margin of money he will earn from the sale, but in the climate of today properties are going for much more than the prices asked. Mr. Solomon said this is more

a matter of principle in being consistent rather than financial hardship as he knows of only one other variance being denied when talked with others at the meeting with Representative Koehler. Mr. Patterson advised Mr. Solomon that we want to work with him, Representative Koehler and others to solve this problem in the future. He said \$5,500 is a lot of money to a lot of people and we want to work together to try to fix this so this is clear and straight forward in the future. He said that we believe this could be fixed with one sentence.

R 48-22 A resolution disapproving household sewage treatment system rules variance at 1601 East Home Road, Springfield, Ohio (Parcel # 3400700030203008) allowing a household sewage treatment system to be permitted in a location that is accessible to sanitary sewer with the responsible party signing a Hold Harmless Agreement.

Mr. Walters	Absent	Motion carried.

Variance Request – 5386 Enon-Xenia Road: Mr. Shaffer said that Mr. Frederick was here in March regarding his home at 5386 Enon-Xenia Road. He said the home was built in 1962 with four (4) bedrooms and two (2) bathrooms with septic design flow at 480 gallons per day. He said that Mr. Frederick and his wife purchased the home in May of last year for \$389,000 and prior to that it sold in 2011 for \$185,000. He said that we were contacted by Mr. Webster and Mr. Lewis who are septic installers regarding replacing the septic system. Mr. Lewis indicated that the current system must be replaced. He said that they hired a soil scientist who determined that suitable soil for a soil-based treatment system is in the rear of the property. He said that the homeowners indicated a hardship to install a line to pump the sewage to the rear of the property and asked for a variance from rule to allow the installation of an aerator in lieu of a soil-based system. He said they provided one estimate for \$26,000 and we verbally verified with the Ohio Environmental Protection Agency that they will allow a discharging permit if the board allows an aerator to be permitted. He said that Mad River Township Trustees have been notified of the variance request and have not offered any comment. He said the board asked Mr. Frederick to provide three (3) quotes after the March meeting to compare the cost of the soil-based system versus an aerator. He said that we have two (2) quotes this evening, one in the amount of \$57,000 for a soil-based system and \$23,000 for an aerator for a difference of \$34,000. He said the second estimate is in the amount of \$60,000 for a soil-based system and \$22,500 for an aerator for a difference of \$37,500. He referred to copies of the estimated included in the board packet. He said that Mr. Frederick has indicated that they have verified the problem with the existing system is not from a clog or broken line, it is just not taking any water and he needs to replace it as soon as possible. Mr. Patterson said that the staff recommendation is that the board consider granting this variance because of the significant financial hardship. He said the homeowners are trying to do the right thing by figuring out how to properly treat their household sewage flow. Mr. Griffith asked if the contractors are still on board to complete this job. Mr. Frederick confirmed that they are ready to go upon approval.

R 49-22 A resolution approving a household sewage treatment system variance at 5386 Enon-Xenia Road, Fairborn, Ohio (Parcel # 1801000005000011) allowing a discharging aeration unit to be permitted for household sewage treatment in lieu of soil absorption with the responsible party signing a Hold Harmless Agreement.

FCFC Shared Funding Agreement: Mr. Patterson said that this is funding of the Family and Children First Council administration at the same level as last year. He said that this is what provides the funding support for the Family and Children First Council Executive Director position and is shared with Mental Health & Recovery Board, Department of Job & Family Services, City and County Schools, the Juvenile Court System and the Health District. He said that we have an excellent council and relationship here in Clark County.

R 50-22 A resolution authorizing the Health Commissioner to negotiate and execute the Family and Children First Council (FCFC) Shared Funding contract for fiscal year 2023, funding at the 2022 level. Motioned by: Dr. King

Ms. DeWitt	Yes	
Mr. Griffith	Yes	Motion carried.

Safe Communities Grant Submission: Mr. Cook said that there are two (2) pages from the Ohio Traffic Safety Office grant included in the board packet. He said that this funding is for a maximum of \$55,000 over the next year and unfortunately this is one of those grants where the funding you get is based on the number of fatal crashes in the county. He said the three (3) year average of fatal crashes for Clark County is just under 18 which equates to the \$55,000 worth of funding. He said that we have had 14 events and referred to a small paragraph on the second page about some of the changes in the funding. He said this is a grant that we are glad to have again and hope to make some positive impacts on safer driving in our community. He said that he would like to take a moment on behalf of the health district, staff and board extend our condolences to the family of the Kenton Ridge High School senior killed in a crash today.

R 51-22 A resolution authorizing the Health Commissioner to do all things necessary including submitting the grant and negotiating and executing all related contracts for the Safe Communities grant.

Mr. Griffith	Yes	
Ms. DeWitt	Yes	Motion carried.

Community Health Foundation CHIP Grant Submissions: Mr. Cook referred to two (2) Community Health Foundation Community Health Improvement grant submissions. He said the first is access to care, which would help fund a new point of access to the community for our public health services. He said the goal is to have this somewhere down the South Limestone corridor. He said that we do not have a location yet but would need funding to renovate and enhance an existing building we are seeking to locate in this area. He said the second grant application for funding is for a maternal and infant health community health worker. He said that this has been a goal in several community health improvement plans to do better with our infants and mothers. He said when looking at some of the initial data that will build our next community health improvement plan it is obvious that this will be another set of goals. He said that this funding will allow us to do more intensive case management with some of our expectant mothers. He said that many people have applied for the Community Health Foundation funding so this cycle for grant funding is very competitive.

R 52-22 A resolution authorizing the Health Commissioner to do all things necessary including submitting the grant and negotiating and executing all related contracts for the CHIP grants.

Personnel Actions: Mr. Patterson said that we have several personnel actions here including some job descriptions, a nursing career ladder, new home visiting tiers, position upgrades and a revision of our fiscal clerk position. He said that Ms. Hardacre has been down a person in finance as Ms. Toadvine has been out and Ms. Toadvine has submitted her resignation and with higher level fiscal work and many more grants, we believe it would be appropriate to bring on another fiscal office versus a fiscal clerk. He said that each of the position descriptions that we have added except this one has had grant funding to pay for them. He said that we have batched these personnel actions together, but we are happy to pull any of them out if the board would prefer. He said the personnel committee met last week regarding these

personnel actions. Dr. King said that the committee discussed the personnel actions here and approves moving them forward.

R 53-22 A resolution approving resolutions 9E1 through 9E7 as written.

R 53-22 9E1 A resolution approving the nursing career ladder submitted at May 19, 2022 the Clark County Combined Health District Board of Health meeting

R 53-22 9E2 A resolution approving the modified position descriptions for home visitors in alignment with the state of Ohio and Healthy Families America submitted at the May 19, 2022, Clark County Combined Health District Board of Health meeting.

R 53-22 9E3 A resolution approving the grant funded Spanish and Haitian Creole interpreter positions and posting and hiring of the same.

R 53-22 9E4 A resolution approving the modified position description for the billing support assistant as submitted at the May 19, 2022, Clark County Combined District Board of Health meeting.

R 53-22 9E5 A resolution approving the posting and hiring of a fiscal officer position to replace the current retiring fiscal clerk position.

R 53-22 9E6 A resolution approving the position description and posting and hiring for the grant funded Minority Health Resource coordinator

R 53-22 9E7.1 A resolution approving a position upgrade from a REHS2 to a REHS 3 for Megan Davis, retroactive to May 2, 2022.

R 53-22 9E7.2 A resolution approving a position upgrade from a Health Planner 1 to a Health Planner 2 for Jacob Clark, effective May 30, 2022.

Healthcare/Ancillary Insurance: Mr. Patterson said that we are still in the process of getting quotes for health insurance. He said that we do have three (3) quotes from Anthem, United Health Care and Aetna and hope to have one (1) more from Medical Mutual. He said that we are endeavoring to bring a very similar coverage that our employees enjoy today with these health plans. He said that we believe that the overall cost, which is the employee share plus the employer share, will be approximately \$1.5 million dollars for the year starting July 1, 2022. He said to put that in perspective, last year we paid \$1.1 million,

and the employees paid \$.1 million for a total of \$1.2 million. He said unfortunately our claims equaled \$1.4 million so we understand why the county indicated that we were not paying our way. He said that it may be slightly less than \$1.5 million dollars as we are going to pick the cheapest plan with the most similar coverage. He said that our request from the board today is to allow us to negotiate and execute health insurance coverage as similar as possible to what we have today with the employees paying as similar as possible the same contribution as today with us picking up the rest. He said that means it is approximately a \$300,000 delta, it means that 37% of last year's health insurance came from the health fund, which is our main fund that our levy goes to and where we pay all our non-grant employees from. He said that the net effect is approximately a 40% effect on our health fund, which is about \$120,000 a year. He said if we had not passed a replacement levy last November, we would not have been able to afford to continue to operate and if we chose to pass on significant cost increases to our employees, we believe we will lose employees, so we are asking the board to take on the entire additional burden of the healthcare as we present it. He said the cost for the sanitarians will go up, but there will be a one-year lag before we can put that into the cost methodology, but we will be able to put this in as an anticipated cost. He said it will be at least a year and half before we will be able to get some of that money back. He said that we submitted the WIC budget today and most of the increase from last year had to go to healthcare. He said that we will have to push additional money into healthcare from all of our grants. Dr. King asked if there is a possibility of being able to re-enter the healthcare coverage with the county. Mr. Patterson said that other entities removed from the group have not been able to re-enter. Mr. Griffith asked if there is a possibility of signing on with other groups. Mr. Patterson said that we did explore multiple opportunities including the city of Springfield and the Educational Service Center, but we have had some high claims and unfortunately, we are not able to combine groups this year. Ms. DeWitt said that it is appreciated that we are trying to keep the costs low for the employees. Mr. Patterson said that it is one thing that sometimes helps us recruit new employees and we can show them that this plan as we have addressed is a \$16.00 per hour equivalent health plan for family coverage. He said this does not include the additional 18% we pay for other things such as PERS. He said that we will have entry level staff make more in benefits than salary. Mr. Griffith asked if we still have positions that we cannot fill. Mr. Patterson confirmed that is correct, however, we feel we have a better shot at filling the positions when we have a health plan to show them with costs and benefits as opposed to last month when we were not able to do that.

R 54-22 A resolution authorizing the Health Commissioner to negotiate and execute a contract for health insurance not to exceed \$1.5 million annual cost agency wide with the employees continuing their current contributions.

Molina Grant Supporting Breastfeeding: Ms. Thomas said that through Molina the WIC division can apply for a \$1,000 grant for support items during our breastfeeding awareness month event. She said that we would like to apply for this funding to purchase Moby wraps to distribute in August at our annual BAM event. She said that Moby wraps are easy to use infant carriers that allow a nursing mother to keep her

infant close and hands free for other tasks. She said that wearing an infant can allow mom to recognize early hunger cues which is essential for breastfeeding success and building her milk supply. She said skin to skin can also be practiced with Moby wraps which has many benefits to breastfeeding and infant/mother well-being. She said that we will be able to purchase about 20 wraps.

R 55-22 A resolution authorizing the Health Commissioner to do all things necessary including submitting the grant and negotiating and executing all related contracts for the Molina grant.

Motioned by: Mr. Griffith

Dr. King	Yes	Motion carried.

Health Commissioner’s Comments: Mr. Patterson said that today the Tremont Barrel Fill consent decree was lodged in the federal court of Southwest District Ohio and we are thrilled that it is moving forward. He said that we are still years away from action, but it is a significant date. He said that is the beginning of a 30-day comment period and we will be able to see the decree and make comments. He said those that were at the meeting recently this is what we have been waiting on.

Mr. Patterson said that the health district will be participating with the prosecutor's office on a gun violence initiative. He said we have shootings almost daily and to date since January 1, 2022, there have been over 400 calls received about shots fired. He said this is becoming an epidemic and we are part of a task force with multiple agencies. He said as Mr. Cook mentioned we had an unfortunate tragedy with the death of a high school senior and these are the deaths that are not only tragic but reflect so negatively on our community health standards and are reflective of years of life lost when we look at the county health rankings and how we are doing overall. He said the traffic safety grant is part of that and we now need to focus some efforts on the gun violence and work with those entities as well.

Additional Business: none

The next regular Board of Health meeting will be held Thursday June 16, 2022, at 6:00 p.m. at 529 East Home Road, Springfield, Ohio.

With no further business to come before the Board, the meeting was adjourned at 7:14p.m.

Charles A. Patterson, Secretary
Clark County Combined Health District
Board of Health

Dala DeWitt, President
Clark County Combined Health District
Board of Health

Health Planning Team: June 2022 Update

One2One:

- **Second Harvest Food Bank (SHFB) Partnership:** During the month of May, we gave out 35 food boxes to our clients.
- **Interfaith Hospitality Network (IHN) Partnership:** During the month of May, we completed 6 housing referrals.
- **Department of Job and Family Services- Clark County (DJFS-CCO Partnership):** Over the month of May, we assisted 6 clients in completing applications for Medicaid and SNAP benefits.
- Needle exchange stats from April 2022, data reflects both locations:
 - 153 Client visits
 - 7,895 Syringes exchanged
 - 92 Narcan kits distributed
 - 4 Treatment referrals
 - 6 Hepatitis C Screens
 - 11 HIV Screens
 - 12 Syphilis Screens

Substance Abuse/DOP:

- On May 25th in partnership with the Mental Health and Recovery Board, we met with the municipal court judges and the prosecutor's office to discuss the development of a pre-trial diversion program for adults facing first time drug offences or individuals who have substance use related needs. Pretrial diversion programs are a way to direct defendants away from traditional criminal justice processing after arrest but prior to adjudication or final entry of judgment. It provides an individual the opportunity to receive the treatment/intervention they might need prior to being convicted of a crime. The judges and prosecutor's office were very supportive of developing such a program and agreed to move forward. The details of the program are still being finalized and more information will be provided when it becomes available.

Maternal Child Health Program (MP):

Objective 2: Preconception Health/ Start Strong

- One goal of Start Strong Clark County (SSCC) is to increase awareness of local resources for expecting mother's and families with babies. One strategy to accomplish this to create a local website that houses resources, contact information, and educational material. Start Strong leadership has worked with a web designer to create and launch the website. Final edits are still being made but the goal is for the website to be live by the beginning of July. You can find the website by visiting <https://startstrongcc.org/>.
- Once the website is finalized, there will be a marketing campaign to create awareness.

Health Planning Team: June 2022 Update

Objective 4: Adolescent Health

- Registration for the LifeSports Summer Camp is officially open. The camp combines a play-based social skills curriculum with a summer sports camp where girls and boys, ages 10-15, from vulnerable circumstances, learn and play in an environment based on teamwork and fair sports-play.
- We are working in partnership with Springfield Promise Neighborhood, Springfield City Schools, and the Mental Health and Recovery Board to put on the camp. A sample of the registration flyer is below.
- **The FY23 Maternal Child Health Grant application was submitted on May 26th. This is a continuation application with a potential funding amount of \$132,000.**

IT'S TIME TO REGISTER FOR OSU LifeSports
SUMMER CAMP!
LIFESPORTS.OSU.EDU
WHAT IS LifeSports CAMP?
Learning In Fitness and Education (LIFE) Sports camp at Hayward Middle School is a sport-based positive youth development summer camp targeting youth ages 6 thru 9th grade (as of Fall 2023). Daily camp activities utilize sport as an avenue to teach key social skills, such as self-control, teamwork, effort, and social responsibility. Camp sports include basketball, football, and soccer.

FUN & FREE!

CAMP BASICS

- All youth grades 6th through 9th grade (as of Fall 2023)
- Camp Date: July 5 - July 29
- Camp starts at 9:00 a.m. daily and ends at 3:00 p.m.
- No registration fees for all youth participants
- Free lunch provided

REGISTRATION:

- To register: visit www.hanqonsloopy.com/lifesports or scan:

Please make sure to select the camp named "LifeSports at Hayward Middle School."

- Capacity: 75 youth, first-come, first-serve based on completed online paperwork.

Springfield PROMISE Neighborhood
Springfield
MHRB
Mental Health Recovery Board
Clark County Combined Health District

Safe Communities:

- The Click-it or Ticket Kick-off took place on Friday, May 27th from 10am to 12pm at the Springfield Swap Meet and Car Show taking place at the Clark County Fair Grounds. The event consisted of a seat belt check and interviews with press.
- News coverage of the event can be found here:
 - <https://www.springfieldnewssun.com/news/local-authorities-asking-residents-to-exercise-caution-during-memorial-day-weekend/LDUUJUXUTFCUNK6XEC7QAUULW4/>
- **The FY23 Safe Communities Grant Application Was submitted on May 31st. CCCHD is applied for \$55,000.**

Tobacco:

- CCCHD received a Notice of Award for the FY23 Tobacco grant. CCCHD was awarded the full \$132,000 we applied for.
- This year's grant ends on June 30th, activities and documentation are being completed to submit a final report and reimbursement.

Health Planning Team: June 2022 Update

Creating Healthy Communities:

- Continue to actively participate in the monthly Clark County Local Foods Council (CCLFC) meetings.
- Ashley attended a Professional Development Bike Ride with other CHC coordinators on June 6th. The goal of the ride was to learn how to critique roadway infrastructure from the perspective of someone who rides a bicycle for transportation; gain a new set of potential resources and allies; and to understand how to navigate traffic confidently and competently by bicycle.
- We had a CHC site visit with ODH on June 8th. The site visit included a one-on-one meeting our consultant, and tours of our two project sites (Visioning Garden and Buck Creek Nature Park).

Lead-Safe Homes:

- We are continuing to work with the City of Springfield and Neighborhood Housing Partnership to create programmatic procedures for the Lead Hazard Control Pilot Program. More information will be provided when it is available.
- Participated in the 1st Haitian Flag Day Festival on May 21, 2022. Met and shared lead literature with around 75 people, specifically distributed Lead Danger: What You Need to Know, Prevent Childhood Lead Poisoning, and Pregnant Tips to Protect Your Baby. Literature available in English, Spanish, and Haitian Creole. Made numerous community contacts and article written and posted on our website about the event.
 - Article posted on CCCHD website [Public health part of Haitian Flag Day outreach – Prevent. Promote. Protect. \(ccchd.com\)](#)
- Two targeted mailings were sent out in May to healthcare providers regarding the priority of lead testing children at one and two and all pregnant women in Springfield. Letters sent by lead case management team to first, all area pediatricians and family practice practices and the second to all are OBGYN offices. Both letters mention CCCHD's lead safe initiative and extended an invitation for us to provide the medical practice with a lead focused lunch and learn. Plan is to call each practice to get lunch and learns scheduled.

Upcoming Events:

- The following is a list of events the health planning team will be attending on behalf of CCCHD during the month of June.
 - June 9th- Resource Fair at United Senior Services
 - June 18th- Juneteenth and The New Carlisle Famer's Market Health Fair
 - June 25th- Springfield Promise Neighborhood's Loving Our Community Event.

Health Planning Team: June 2022 Update

Staffing Updates:

- Leslie Stine, Safe Communities and Adolescent Health Coordinator has submitted her resignation and her last day at CCCHD will June 17th.
 - Discussions are being had on the best way to fill this position.
- We are currently completing interviews for the vacant Health Planning position within the Lead program.

CCCHD Public Health Ethics Review Tool

Date of Review Meeting:	June 9, 2022
Attendees by Name and Title	Elizabeth DeWitt Larry Shaffer; Director of Environmental Health
Area of Discussion:	Variance request from Ohio's Household Sewage Treatment System rule 3701-29-06 (G) (3): 2842 Evergreen Drive, Springfield OH - Parcel #0500600018408012

Principles of Ethical Public Health Practice	Principles Applied to Program Level	Principles Applied to Specific Event
1. Address principally the fundamental causes of disease and requirements for health, aiming to prevent adverse health outcomes.	Prevent humans and animals from contact with untreated sewage. Use best available technology to treat sewage.	Keep sewage below ground. Utilize soil to treat sewage onsite.
2. Achieve community health in a way that respects the rights of individuals in the community.	Discuss options with client including change of design and request for variance from rule.	Due to layout of property, the client has difficulty finding a suitable location to install replacement septic tank and has elected to request a variance from rule.
3. Policies, programs, and priorities should be developed and evaluated through processes that ensure an opportunity for input from community.	As this is implementation of state law and rule- public input has occurred at the state level. The Board of Health consideration of variances occurs in a public meeting with input from the community.	Board of Health Meeting; June 16, 2022. German Township Trustees to be advised of pending review by Board of Health.
4. Advocate and work for the empowerment of disenfranchised community members, aiming to ensure that the basic resources and conditions for health are accessible to all.	The law and rules allows for a "hardship" or financial consideration when making the variance decisions.	The Board may consider cost and difficulty of alternate design for a variance from rule.
5. Seek the information needed to implement effective policies and programs that protect and promote health.	Not applicable- State Law and Rules.	N/A

Public Health Ethics Reviews

529 E. Home Road
Springfield, OH 45503

Principles of Ethical Public Health Practice	Principles Applied to Program Level	Principles Applied to Specific Event
6. Provide communities with the information they have that is needed for decisions on policies and programs and should obtain the community's consent.	Not applicable- State Law and Rules.	N/A
7. Act in a timely manner on the information they have within the resources and the mandate given to them by the public.	Process variance request ASAP and present to the next Board of Health meeting for their consideration.	Received first week of June, 2022; Reviewed by Board of Health June 16, 2022.
8. Programs and policies should incorporate a variety of approaches that anticipate and respect the diverse values, beliefs and cultures in the community.	Not applicable- State Law and Rules.	N/A
9. Programs and policies should be implemented in a manner that most enhances the physical and social environment.	Consideration should be given to the surrounding terrain and the variances impact on the neighboring properties as well as the owner's property.	N/A in this situation; no impact to neighboring properties, water quality, serviceability, etc.
10. Protect the confidentiality of information that can bring harm to an individual or community if made public. Exceptions must be justified on the basis of high likelihood of significant harm to the individual or others.	Not applicable- no confidential information.	N/A
11. CCCHD should ensure the professional competence of its employees.	Professional development and training must occur and documentation uploaded into the Workforce Development database.	Staff attends educational conferences as available, participates in quarterly roundtable meetings with other health departments in southwest Ohio, and monitors monthly statewide sewage conference calls. Issue discussed with Env. Health Supervisor and Director.

Public Health Ethics Reviews

529 E. Home Road
Springfield, OH 45503

Principles of Ethical Public Health Practice	Principles Applied to Program Level	Principles Applied to Specific Event
12. CCCHD and its employees should engage in collaborations and affiliations that build the public's trust and the institution's effectiveness.	Township trustees, county commissioners, village council members, realtors and mortgage bankers, builders, installers, designers, and service providers should all be educated and regularly informed of the implementation of the rules.	German Township Trustees have been advised of the request for variance and requested to comment.

Next Steps:			
Objective	Related Activities	Timeframe	Responsible Party
Ensure compliance with conditions of the variance is passed.	Perform on-site inspections as needed.	By project's completion.	Environmental Health Staff
