Next Meeting Date – Thursday, February 15, 2024

Adjournment

Clark County Combined Health District
Board of Health Minutes
December 21, 2023

President Dala DeWitt called the December 21, 2023, Clark County Combined Health District Board of Health meeting to order at 6:00 p.m.

Board members present: Dala DeWitt, Scott Griffith, Valerie Moore, Bernadette deGuzman and Mike Adamson

Board members absent: Sherry Robinette and Dana King,

Staff present: Charles Patterson, Health Commissioner; Elizabeth DeWitt, Environmental Health Director; Christina Conover, Director of Nursing; Emily Shaffer, WIC Director; Lori Lambert, Early Childhood Director; Shannon Hackathorne, Administrative Assistant to the Health Commissioner; Lindsey Hardacre, Fiscal Officer and Chris Cook, Assistant Health Commissioner.

Guests: Camille Cary, citizen and Jim Cary, citizen.

Minutes: The minutes of the November 16, 2023, Board of Health meeting were approved as submitted.

Activity Reports

Nursing: Ms. Conover first congratulated Ms. Kathryn Grable, our Disease Intervention Specialist, for completing her phlebotomy certificate. She said having this certification will allow her to be more independent for field visits, not having to rely on a nurse being available to go along. She said that this was a considerable time commitment and thanked Ms. Grable for her hard work in getting this certification.

Ms. Conover said that Ms. Gloria “Kitty” Smith with her team of PRN staff and MRC volunteers finished the bulk of the vision and hearing screenings between August and November. She said that they screened 7,891 students for vision and 6,893 for hearing through the various charter, public and private schools, working with the school nurses and thanked that team for their hard work.

Ms. Conover said that she also wanted to mention the increase in tuberculosis testing which will be further reflected in the December report. She said we were alerted by many people coming in for tuberculosis testing that Immigration Services had sent out a mass reminder message about the requirement. She said that we typically complete around 60 screenings a month and this month we have already completed 208. She thanked the administration, health planning and nursing staff for stepping in to help get these screenings completed. She said that the increased screenings have been good practice for us to figure out different ways to complete mass screenings more efficiently using our interpreters in the best fashion. Ms. Moore asked how many positive screens we had. Ms. Conover said that there were approximately 20-25% positive screenings. Ms. Moore asked if they have been started on treatment. Ms. Conover said that they have started treatment in various stages as chest x-rays are ordered to rule out any signs of active infection and then Dr. Bashir, who is a great asset to our program recommends the medication for treatment. She said that the treatment is not mandatory, however, most people do take the medication. Mr. Patterson added that the screenings we complete this month will have an ongoing impact for the next several months. Ms. Conover said that most often the treatment recommended

now is a three (3) month plan, which has been great for retention with people finishing the course. She said that of the positive screens there are only currently three (3) active. She said that we are realizing that even in the medical field there are many misunderstandings between latent versus active tuberculosis and we need to find time to meet with some of our healthcare partners to clarify this and avoid unnecessary panic. She said suggestions for helping spread this message are welcome. Ms. Moore suggested explaining the difference on our social media pages, website and sending communication to our local healthcare providers.

Environmental Health: Ms. Elizabeth DeWitt said that part of their goal in Environmental Health is to educate our clients with hopes of helping them make a positive change for the good of the public. She said that they struggle daily to find that happy balance between educating, making the change, building relationships and the enforcement aspect. She said that one of the items removed from the agenda this evening is a retail food establishment that we have been working with for several months to get them compliant. She said that it was a lot of work with many weekly visits trying to get them to understand, but they have finally made progress so we decided to see if we can make more progress before bringing it to the board for an administrative hearing. She said that it can be very discouraging for our staff when you are visiting the same facility week after week giving them the same guidance, but they stuck with it and have done a great job getting the establishment to this point and thanked the staff for the hard work.

Ms. Elizabeth Dewitt said that the team also had 200 more aerators to inspect this year compared to previous years, so we have had all hands-on deck trying to get those inspections completed. She said that we do have a few of those on the agenda to discuss.

Early Childhood: Ms. Lambert said that we were awarded funding from the Ohio Children's Trust Fund for the Early Childhood safety initiative. She said that we were one (1) of 24 counties to receive these funds. She said that families must be TANF (Temporary Assistance for Needy Families) eligible to receive the safety items and we handle identifying what items families need. She said that we then supply education to the families about what a safe home looks like and how to safely use the items provided. She said that we started ordering safety items the second week of October and have already distributed 89 items with education around those items. She said that we have supplied toddler beds, strollers, booster seats, highchairs, baby monitors and baby gates, which are among the most popular items needed.

Ms. Lambert said we also received a generous toy donation from Sarah Clemans, AAMS with Edward Jones' office locally, which we provided to families. This donation was helpful for families unable to sign up for the Salvation Army toy drive due to the early deadline. She said the families were excited to receive the toys and thanked Ms. Clemans for the donation.

Ms. Lambert said that we are down 1.5 positions, however, she is happy to report that they interviewed a candidate recently and would like to offer her the full-time position. She shared that Ms. Mary Kopp, who has worked with the health district for over 20 years passed away a couple of weeks ago. She said that Mary was a great friend and coworker and will be greatly missed by all. She asked that everyone keep Mary's family in their thoughts.

WIC: Ms. Shaffer said that the WIC team is finishing their first state management evaluation (ME) since the pandemic. She said that the ME occurs every two (2) years, but this is the first in person visit conducted by our current state consultant as the previous year's visits were done remotely. She said that our consultant saw first-hand the substantial number of participants that our team is serving, and the increased use of interpreters being used, provided by our agency and via

phone. She said that the visit was helpful in reviewing the process and adjusting in areas where improvements were needed.

Ms. Shaffer said that the state has rebranded with the new “Ohio, Heart of it all” logo which means our WIC logo can no longer be used so we are transitioning that. She shared a picture of the new logo and said one of the concerns mentioned by most directors at the fall meeting where the new logo was introduced was that it is not very visible.

Ms. Shaffer said that the Red Bib pilot program she mentioned a couple of months ago is now up and running. She said that this is the program where participants can receive a free box of food. She said that there are only 75 gift cards available, so we have only posted in the clinic for now. She said that this will be \$170.00 that the participant can use through the Red Bib website to buy groceries. She said we have had some participants sign up and are anxious to hear their feedback.

Ms. Moore said it looks like they are at 65.2% for the breastfeeding initiative which is above the state average and suggested flipping that number on the report, so the current year is at the top. She said this would highlight significant changes such as this one which is a shining star that may not be noticed with the number being at the bottom. Ms. Shaffer thanked her for the feedback and said that she would move that number to the top.

Health Planning: Mr. Cook said that we now have opioid rescue kits, which we call “naloxboxes” in all our buildings. He said that these boxes are mounted on the wall with gloves and basic supplies. He said that as we get further and further into the ongoing opioid epidemic here in Ohio, we will see more business and public places put these boxes in place and wanted to recognize that our health district now has one in all buildings and thanked Mr. Jacob Clark and the health planning team for helping make this happen. Ms. DeWitt asked what the cost was for one of these boxes. Mr. Cook said that these boxes were given to us from the state so we are not sure what the cost would be. Ms. Moore asked if they have visible expiration dates. Mr. Cook confirmed they do have visible expiration dates, which are not until late 2025 or 2026.

Mr. Cook said we are working with the county and the Department of Development on a lead safe Ohio program different from what we have here in the health district. He said that they were awarded a little over \$1,000,000.00 to do renovations and eliminate lead hazards in homes. He said that it does limit the amount spent to \$50,000.00 per house, which should allow them to complete 20-22 houses. He said that there is a small administrative cost involved. He said they had a meeting last week and are looking on us as the experts as we have our finger on the pulse of the lead hazards here in the community. He said that they are looking to us for recommendations on houses to remediate the lead. He said that we are excited about this program as this will put another 20-22 safe homes back into our housing inventory here which is much needed.

Mr. Cook said that we sent three (3) applications to the Springfield Foundation for grant funding and were awarded all three (3) which is exciting. Ms. Christina Conover and Ms. Gracie Hemphill and Mr. Cook each wrote grant applications and thanked everyone for their efforts to secure this funding.

Mr. Cook said that the Minority Health Fair is scheduled for April 27, 2024, and there have been meetings every month with the planning group, which is led by Ms. Gracie Hemphill, preparing for the event.

Mr. Cook congratulated Ms. Gracie Hemphill, who will be our next Deputy Health Commissioner. He said that she has been with the health district for four (4) years and in the supervisor role the past couple of years. He said that she previously served at Job and Family Services and United Way and brings a wealth of knowledge about community, and he looks forward to working with her in this new role into the future.

Vital Statistics: Ms. Hackathorne noted that the low-birth-weight numbers are still high when comparing the earlier five (5) year average and the number of births continues to rise.

Financial Report: Ms. Hardacre said that we paid an invoice from fund 8251 that was a little over \$171,000.00 which ran the fund into a negative cash balance. She said she checked the warrant for reimbursement status today and is hopeful that we will get it before the end of the year.

Legislative Update: Mr. Patterson pointed out that the House and Senate are considering overriding the Governor's veto of the flavored tobacco ban. He said that this was due to a local flavored tobacco ban within Columbus City. The Governor did not feel that this was a good and thought the cities should be able to make these decisions and administer them, but the state legislature is deciding to show their power and voted to override that veto, so we have to go back to see if it affects our T21 legislation that we currently have with the city and people who are trying to prevent lung cancer. He said that we are upset about this, and it is really a setback in public health across the state. He said that the legislature does not support public health and since COVID has worked to strip away the powers of the local health departments and boards of health.

Vouchers: Ms. Hardacre presented the bills.

R 115-23 A resolution approving payment of the bills from November 1, 2023, through November 30, 2023.

New Business

Variance Request – 4047 Moss Point Lane: Ms. Elizabeth DeWitt said that this is a sewage variance request for the separation distance between a new septic system and a well on the neighboring property. She said that due to limitations on the property that would include the way the land runs there is a limited area to try to fit a septic solution or a septic system and the proposed septic system from the designer is a mound system with lateral distribution and the treated sewage would come out about 50 feet from the neighbors well. She said that they would have to put sand on the sides with the top being about 42 feet from the neighbors well. She said that the state does consider that part of the septic system the designer has designed an interceptor drain which goes around the outside of the mound to help with run off and surface water to keep it away from the mound. She referred to drawings included in the board packet and said that they cannot move the mound farther north because that is where it gets into the drainage swell, and we must maintain distances. She said that the designers used all sizing reductions studies they could to try to get this system to fit. She said that it does use an aerator system to pretreat it. She said that the only other choice was a split mound which increases the cost. She said that we also need to think about the replacement area which will most likely not meet isolation distance. She said that this is a new construction that has started but they have not dug

foundations yet. President DeWitt asked if we knew how much the cost would be for a split mound. Ms. DeWitt said we did not receive the information requested on added costs for a split mound.

President DeWitt said that the neighbors Mr. Jim Cary and Ms. Camille Cary were here to speak this evening and turned the floor over to Mr. Cary. Mr. Cary thanked the board for allowing them to speak. He said that this variance belongs to Mr. Applegate, but it is still within 50 feet from where it must stay away from. He said that this variance affects their property because when they get ready to sell it will be a red flag to prospective buyers and could decrease the value of their property. He said that they are asking the board to deny this variance because it affects their property, and the neighbor has other options such as a split mound system. He said that he has talked with the neighbor, and he is a nice guy and believes that he is good to go with a split mound system. Ms. Cary said they are concerned with this variance affecting their property value because they are getting older and do not want their home to become unsellable with this variance in place. Mr. Cary said that potential buyers may come in and not understand the variance as well as others.

Mr. Patterson said to give a little history he does not believe that this board has granted a variance request to a neighbor's well less than 50 feet and wants to make sure the board understand that this would set a precedent. He said that the board has granted variances for less than 50 feet from the well on their own property, but not a neighbor's property. He said that this is a unique case which potentially affects the neighbor's property value. He thanked Mr. and Ms. Cary for coming in to express their concerns. He explained to the board that based on not having the information needed or with the information we have he would recommend that they vote against the variance because we did not get the information to make a good reasonable decision and the neighbors have brought a valid concern. He recommended disapproving the variance and adding a line to note that the board does not intend to grant a variance without written consent of the neighbor. Ms. Moore said that she would be concerned if this was her property too. Mr. Adamson asked if we reached out to German Township. Ms. DeWitt apologized and said that she forgot to mention that we did a public ethics review as we do on all of our sewage variance request which was sent to the German Township Trustees for comment and have not received a response. Mr. Griffith agreed with disapproving due to not receiving the information needed and the potential affects to the neighboring property.

R 118-23 A resolution disapproving a household sewage treatment system rules variance at 4047 Moss Point Lane, Springfield, Ohio (Parcel # 0500200015000155) allowing a household sewage treatment system to be installed in a location that is less than 50 feet from the neighbor's well with the responsible party signing a Hold Harmless Agreement.

Sewage Nuisances: Ms. Elizabeth DeWitt said that the next three (3) items are sewage nuisances for aerators. She said that we struggle with getting people to keep their aerators maintained and properly working. She said that we often find motors not working and systems without chlorine tablets which results in raw sewage being discharged out to neighborhood surfaces, so we work with these homeowners to get their aerators working properly. She said that these are typically quick fixes so a few years ago we switched our policy to allow them a week to get it fixed before we go back. She said that we do that three (3) times and on the third visit we bring them to the board. She said that our first one tonight is 2905 Dogwood Drive. She said that our first visit was at the end of October, and we found that the system did not have chlorine; we went back after a week, and it still did not have chlorine. She said that on the next visit we found that it still did not have chlorine, but the homeowner said they were putting chlorine in it. She said that we learned that there were seven (7) people living in the home so we believe that their chlorine holder does not have a bottom and with lots of water usage the chlorine may be getting washed out each time, so we have been working with them on suggestions on how to get this fixed. She said that when we went out in the beginning of December the motor was not running and there was still no chlorine in the system. She said that we talked with the homeowner again and she assured us that she would get it fixed, but upon our return yesterday nothing was done. She said that we have contacted their service provider and were informed that it will be a couple of weeks until they get the motor parts in and fixed. She said we believe the homeowners have had ample time to resolve this, which is why we are bringing this forward. Ms. DeWitt asked what happens once the board declares it a nuisance. Ms. Elizabeth DeWitt said that in the past once the board declares the public health nuisance, we give them a set amount of time to get it fixed and if it is not fixed by the next meeting we go ahead with prosecution, or the board authorizes us to have it fixed and the cost assessed to the property taxes. Mr. Patterson said that the 14 days will allow us to then go back and check the system and if not working notify the homeowner that the board will hold a hearing at the January meeting which gives them a couple more days to have it fixed and working properly. He said that if the system is fixed by the next meeting, then there is no need for board action.

Ms. Elizabeth DeWitt said that the second one tonight is 4995 Selma Pike. She said our first inspection for this one was at the beginning of November, and we found that the system did not have chlorine or an operational motor and still has not been repaired. She said that when we went back out yesterday, we found that home is currently vacant but they are in the home doing work to move someone in so we feel that while they are not using the system on a regular basis, they are doing work with the intention that someone will back into the home, and we want it operating when someone moves in.

Ms. Elizabeth DeWitt said that the third one is 9475 West National Road. She said that our first inspection for this one was at the beginning of November, and it was found that the motor was not working. She said that the homeowner did call a service provider who picked up their motor and took it to the shop for repair. She said the service provider has informed us that the repair is complete, but the homeowner has not paid their invoice, therefore, they are not returning the motor until the invoice is paid, which is around \$700.00. Ms. DeWitt said that they appreciate the team's diligence in getting these things resolved.

R 119-23 A resolution approving public health nuisance resolutions, agenda numbers 9C1, 9C2 and 9C4, as written.

R 119-23-9C1 A resolution declaring the property at 2905 Dogwood Dr., Springfield, OH (Parcel # 0500600018403007) a public health nuisance under authority of

Ohio Revised Code 3707.01 and further ordering the owner, Tiffany Hyland, to abate the sewage nuisance within 14 days.

R 119-23-9C2 A resolution declaring the property at 4995 Selma Pike., Springfield, OH (Parcel # 0801200024000023) a public health nuisance under authority of Ohio Revised Code 3707.01 and further ordering the owner, Kathy Spencer, to abate the sewage nuisance within 14 days.

R 119-23-9C4 A resolution declaring the property at 9475 W. National Rd., New Carlisle, OH (Parcel # 0100500015101001) a public health nuisance under authority of Ohio Revised Code 3707.01 and further ordering the owner, Clinton Huffman, to abate the sewage nuisance within 14 days.

Employee Raise Package: Mr. Cook said that we are asking the board to consider a 3% cost of living increase for all non-probationary permanent full time and part time employees effective the first payroll of next year which begins on January 8, 2024. He said that we carefully consider what is going on in the economy with our long-term budget forecast and while we do need to position ourselves in a fiscally conservative manner going forward, we feel at this point we can offer the staff a 3% increase for next year. He said that with everything public health has been asked to do even beyond the pandemic in the last ten (10) years we feel that this is both the right thing to do and the fiscally responsible thing to do at this point. He said that the inflation rate for November was at 3.1% so this is aligned with what we are seeing in the open markets, and we believe that looking forward this is the position we need to be in. He said that we appreciate earlier raise

package approvals by the board and their previous generosity and again stated that we believe this is both the right thing to do and a fiscally responsible thing to do. He said that additionally the resolution asks for a second component to authorize the Health Commissioner to post entry level salaries at up to \$2.00 an hour above the existing base rate dependent on market conditions. He said that we are not asking to raise the base, just authorizing the Health Commissioner to offer up to \$2.00 more per hour based on market conditions. Mr. Adamson asked when the last cola raise was given. Mr. Patterson said that the last pay increase was last year. He said that other than promotions we do not give raises aside from the annual raise, so the cola is that annual raise. Ms. Moore asked about the decision to post entry level salaries at \$1.00 to \$2.00 above the base but not raising the base and the potential for fluctuation in pay between someone hired tomorrow versus a year from now. Mr. Patterson said that we are not raising the base but if the market is dictating a need for a look at the pay scale this gives us the flexibility to add \$1.00 to \$2.00 to that base. He said that if we are not experiencing that demand we will keep the base the same. Ms. Moore said that she does understand that but if we interview a candidate in a tight job market making \$2.00 more an hour and then interview another candidate the next year in a better job market with all things being equal that now makes \$2.00 less per hour. Mr. Patterson said that this would be a possible scenario. He said that as an example, we are looking for a WIC Certifying Health Professional and if we post that position and do not get applicants, we will have the flexibility to add \$1.00 to \$2.00 an hour to attract candidates. He said that we have some of our 4-year degree positions starting below \$20.00 per hour and candidates can go to a material manufacturing company and make significantly more than that. Ms. Moore said that she does not doubt these statements but said that in her work environment they know that everyone comes in at entry level. Mr. Patterson said that it is very unlikely that the base would go down if we did post a position at a higher rate unless there is a huge recession. Ms. Moore said that it seems like a better idea would be to look at what the market adjustment would be for the needed positions, so candidates get a fair offer and avoid it becoming subjective. Mr. Cook said that this would not be subjective based on the person but more the position and market conditions. Mr. Patterson said that this would not be something given based on the person but more the market conditions as Mr. Cook said and if a candidate applied for the position a year later, they would know the pay rates. Ms. Moore said that she is being the devil's advocate here and asked how the candidate is to know when they have a conversation with an employee hired last year that the pay was adjusted based on market conditions at the time. Mr. Patterson said that we are very careful about this and how it affects the staff who have been here 2-3 or even 4-5 years. He said that every time we move the pay scale it affects the middle. Mr. Patterson said that we are happy to do something different if the board wishes. Ms. Dala asked if this is just for 2024, giving us the opportunity to look at it again next year. Mr. Patterson confirmed that was correct. Ms. Moore said that she feels that it would be best to look at the positions in high demand and make market adjustments to those position salaries. Mr. Patterson said that these positions would be the environmental health specialists, certifying health professionals, social workers, and nurses. He said that these are more of our 4-year degree positions versus entry level. The board decided to strike that part of the resolution and instructed the Health Commissioner to look at the positions in demand and market conditions to bring to the personnel committee for further discussion on moving the pay scale.

R 121-23 A resolution approving a 3% pay raise for non-probationary permanent full-time and part-time employees to be effective the first full pay of 2024 and increasing the top of the salary range by the same percent. This increase does not affect the pay rates of the Assistant Health Commissioner or Health Commissioner.

HVAC Repair: Mr. Patterson said that this was not in the original design for the HVAC installation that is in progress now. He said that Mitsubishi is now recommending that all individual fan coil circuits be valved off so they can shut that unit down with the refrigerant and keep that refrigerant in it to do whatever work may be necessary. He said that the charge for refrigerant itself is about \$7,000.00 so it makes sense in the future for them to build this while building the system as they are expensive valves to work on in that type of environment. He said that the repair cost is approximately \$9,000.00 and this will be paid from the Medicaid Administrative Claiming (MAC) Fund that we use for capital projects.

R 123-23 A resolution authorizing a contract with Hauck Brothers, not to exceed \$9,000.00 for the addition of 44 ball valves for the HVAC installation.

Contract Renewals: Mr. Patterson said that these are our annual contract renewals that will be at the same rate as last year apart from Dr. Bashir, who is our tuberculosis (TB) control physician.

He said, as we mentioned earlier, business is very brisk and we just could not do this without Dr. Bashir, so we are asking the board to increase his contract amount by about 50%. He said that we talked with Dr. Bashir about this, and he was appreciative for the recognition of the increased workload.

R 124-23 A resolution adopting contract renewal resolutions, agenda numbers 9H1 through 9H9, as written.

R 124-23-9H1 A resolution authorizing the Health Commissioner to negotiate and execute a TB Control Physician contract with Dr. Bashir.

R 124-23-9H2 A resolution authorizing the Health Commissioner to negotiate and execute a Medical Director contract with Dr. Laura Thompson.

R 124-23-9H3 A resolution authorizing the Health Commissioner to negotiate and execute an Alternate Medical Director contract with Dr. Libby Wilson.

R 124-23-9H4 A resolution authorizing the Health Commissioner to negotiate and execute a contract with Madison County Public Health and Champaign Public Health District for Epidemiology services.

R 124-23-9H5 A resolution authorizing the Health Commissioner to negotiate and execute the pharmacy contract with Harding Road Pharmacy.

R 124-23-9H6 A resolution authorizing the Health Commissioner to negotiate and execute a contract for rabies control services with a local veterinarian and/or the Board of Clark County Commissioners for 2024.

R 124-23-9H7 A resolution authorizing the Health Commissioner to do all things necessary including negotiating and executing a contract with Special Waste Systems for Infectious Disease services.

R 124-23-9H8 A resolution authorizing the Health Commissioner to do all things necessary including negotiating and executing a contract with the Ohio Department of Health for Medicaid Administrative Claiming.

R 124-23-9H9 A resolution authorizing the Health Commissioner to execute a Memorandum of Understanding (MOU) with the Diabetes Association and Champaign Public Health.

Motion carried.

2024 Amended Budget: Ms. Hardacre said that the tax revenue line changed as we did receive another homestead rollback intergovernmental estimate which is significantly lower. She said that we bought the previously leased Honda vehicles so that line reduced significantly as well. Mr.

Patterson added that we hope to get the budget approved from the county auditor next week so we can begin putting in our 2024 purchase orders. He said that as a reminder the board approved the original 2024 budget in March this year and this is just an adjustment of that. He said that this includes some grants that did not exist last year such as the preconception health, linkage to prevention care and adolescent health grants. He said that we will take a more detailed look with the finance committee in March for the 2025 budget with the possibility of coming back to the board for tweaks quarterly in 2024.

R 125-23 A resolution approving the 2024 amended budget as submitted at the December 21, 2023, Clark County Combined Health District Board of Health meeting.

2024 Vaccine & Supply Purchase Plan: Ms. Conover said the nursing supply purchase plan and vaccine purchase plan details the proposed purchases for 2024. She said that having this plan approved up front allows to move forward with the purchase of nursing supplies and vaccines without having to come back to the board for individual purchases over \$1,000.00. She said that we can access the vaccines at this cost because of the agreement we have with local public health services which includes access to the CPP cost which is slightly less than the retail cost. She said that Ms. Tina Fisher was great at going to a more detailed level to see that we are covering the cost of the vaccine. She said that this can be a little tricky to do because vaccine may sit in the fridge for two (2) years if within the expiration date and demand comes in spurts. She said there are also varying reimbursement rates and delays in reimbursement. She said that when comparing what we pay for vaccine and what we bring in we are covering our costs and sometimes make a small profit. Mr. Patterson added that when he looks at 2022 and what we spent on vaccines, what we brought in it is almost a break even, but when you look at the detailed analysis versus what you spent and brought in for vaccines given, we came out ahead. He said that it also has a lot to do with timing because, as Ms. Conover mentioned, the reimbursement could be over a 3–4 month or even longer period. He said that the board provides the nurses and the public pays for the ability for the health district to have clinic rooms and staff to give the vaccines that people chose to get. Ms. Conover said the vaccine supply purchase plan does project a 5% increase.

R 126-23 A resolution approving the 2024 Vaccine and Nursing Supply Purchase Plans as submitted at the December 21, 2023, Clark County Combined Health District Board of Health meeting.

Faith Community Nursing Contracts: Ms. Conover said that these contracts are related to the faith community health ministry and primarily the contracts will be with Mercy as the funding flows through Mercy to the health district and then we act to pay bills for the project including the coordinator for the program. She said last year we also had part-time education personnel too. She said the funding has greatly decreased, so we are still working to navigate what support positions we will keep but are still blessed with the funding we have for this program.

R 127-23 A resolution authorizing the Health Commissioner to contract with Mercy Health/Mercy Foundation and The Nehemiah Foundation for Faith Community Nursing services and further authorizing the Health Commissioner to do all things necessary including negotiating and executing contracts not to exceed the allocated funding.

Champaign County High Risk Chart Review: Ms. Shaffer said that the board previously approved us to contract with Champaign Public Health Department to help with their high-risk chart reviews. She said that we have two (2) dietitians on our team including herself that can complete these reviews, and, in her case, her position makes her ineligible for compensation past 40 hours. She said that Clark County is of course her main priority which means this chart review will require hours above her normal hours here and therefore, she is requesting additional compensation at the regular hourly rate for hours worked doing high risk chart review that is billed to Champaign Public Health Department. Ms. Moore asked if we know how many hours this will be. Ms. Shaffer said that it is very minimal.

R 131-23 A resolution authorizing the WIC Director to receive additional compensation at her regular hourly rate for each hour charged to the Champaign Public Health Department for WIC high risk chart review.

Community & Faith Based Infant & Maternal Health Grant: Mr. Cook said that the new department of children and youth at the state level made this funding opportunity available and gave us two (2) weeks to apply. He said that we assembled a team to discuss applying and a plan of action for the \$275,000.00. He referred to the document included in the board packet and said he highlighted the purpose which is a combined effort with social service agencies, faith-based agencies, and community agencies to work together to improve maternal health and outcomes here in our community. He said that when you read the community health improvement plan (CHIP) you see that this is one of our priority areas so a great deal of this grant would go to other agencies in our community including the faith community health ministry including some partnerships with Nehemiah Foundation, Pregnancy Resource Clinic, Rocking Horse Community

Health Center, WIC, Early Childhood and Wittenberg. He said that we are trying to look at all the potential partners out there and put everything in this grant application with high hopes of being awarded the funding. He thanked Ms. Christina Conover and Ms. Gracie Hemphill for their help in putting this application together. He said that we are hopeful that an announcement will be released soon as the grant year starts January 2, 2024.

R 133-23 A resolution authorizing the Health Commissioner to do all things necessary including submitting the grant, negotiating, and executing all related contracts and creating any required funds for the Community & Faith Based Infant & Maternal Health grant.

Tuberculosis (TB) Prevention and Control (under the direction of Dr. Bashir)

In December we learned that USCIS had sent out a reminder to those persons who are working through immigration, including a reminder to get a screening for tuberculosis, as part of the process. To address the surge the Communicable Disease Team altered the service delivery process and had some support from the other nursing and administration staff, interpreters and health planners. **In January, the surge continues with over 60 screenings completed on January 8th.**

Faith Community Health Ministry
Fiscal Year 2023

Clark County Combined Health District

2023 Annual Communicable Disease Report

Communicable Disease Summary

This has been a busy and interesting year of new challenges in Communicable Disease (CD). There was almost a full staff turnover with a new CD supervisor (Shaiann Ferguson), CD investigator (Amy Hodik), and epidemiologist (Helaina LeCaptain). The whole team did an excellent job taking on new responsibilities and sharing the increased workload. The CD team is also grateful for the assistance of those from other areas of nursing and different departments in keeping things running during times of transition.

Some of the most notable CD events this year included investigating travel related illnesses such as Dengue and Malaria, a class A reportable case of *Neisseria meningitidis*, a case of infant botulism, Clark County's first *Candida auris* case, and the many challenges associated with Tuberculosis cases.

Disease Trends

Sexually Transmitted Infections (STIs)

The overall number of STIs has decreased from the previous year. There were 947 cases compared to 1,241 in 2022. Chlamydia, Gonorrhea and Syphilis numbers all decreased in 2023. However, HIV case counts increased significantly. Please see the attached annual communicable disease chart for more detailed numbers. Syphilis has been on the rise since 2017. As shown in the figure below, Clark County had a drop in cases from 126 in 2022 to 45 in 2023.

Syphilis cases decreased drastically in 2023.

Clark County cases counts by year

Vaccine Preventable Diseases (VPDs)

VPDs are down from last year. In 2022, there were 302 total VPDs and in 2023 there were 125. Much of the decrease was due to significantly less hospitalized influenza cases compared to last year. There were 235 hospitalized influenza cases in 2022 and only 39 in 2023 in Clark County.

Influenza-associated hospitalization cases decreased significantly in 2023.

Clark County case counts per year

Enteric Diseases

There were no significant changes in enteric diseases from the previous year. There was a slight increase in number of cases with 77 cases reported in 2022 and 84 cases reported in 2023. In 2023, the most common enteric diseases were Campylobacteriosis (32 cases) and Salmonellosis (20 cases).

Outbreaks

There were 21 outbreaks investigated in Clark County in 2023. Seven of those were COVID-19 outbreaks, 6 of which were in Long-term care facilities and 1 that was in a preschool.

There were 6 Hand Foot and Mouth Disease outbreaks in Clark County schools this year, with most of them being in the fall of 2023. The other disease outbreaks in schools this year included 3 conjunctivitis (Pink eye) outbreaks, 1 Epstein-Bar virus (mono) outbreak, 1 impetigo outbreak, and 1 norovirus outbreak.

The CD team also worked with Springfield Regional Medical Center to identify the source of a possible outbreak of *Candida glabrata*. The team consulted with ODH and CDC to get advice about this less common infection and pursue further lab testing.

Latent and Active Tuberculosis (TB) in Clark County

Active TB cases in Clark County increased significantly in 2023.

Total cases counts for each year

In 2023, there were 6 Active cases of TB. Three required housing in order to properly isolate for TB. The CD team managed all medications and care for active TB cases. In addition to active cases, this year there were 83 individuals recommended for treatment of latent TB. The CD team also manages medication prescribed for latent cases. In 2023 there were 41 individuals on latent treatment. Latent cases are identified through TB screenings with the use of IGRA testing. TB tests are drawn at the CCCHD weekly TB clinic. The figure below shows the test volume for each month in 2023.

Clark County had an increase in volume of TB IGRA screenings in December.

Counts for TB IGRA screenings in each month of 2023

The increase in testing volume in December required an expansion of the TB clinic. A large conference room was utilized to accommodate the number of clients coming to the clinic. There were 3 intake stations and 5 stations completing blood draws. There were about 80 clients served

on the highest volume week. All the work completed by the TB clinic was a collaborative effort that showed the culture of teamwork and willingness to help at CCCHD.

Perinatal Hepatitis B Investigations

In 2023, 9 Clark County babies were born to mothers with hepatitis B or unknown hepatitis B status. Hepatitis B virus infection in a pregnant woman poses a serious risk to her infant at birth, but with timely intervention and vaccination, perinatal hepatitis B virus transmission can be prevented. All babies born to hepatitis B-infected mothers or mothers with unknown hepatitis B status should receive hepatitis B vaccine and hepatitis B immune globulin within 12 hours of birth, followed by a complete hepatitis B vaccine series during their first 6 months of life. Additionally, CCCHD conducts case management activities for all household and sexual contacts to ensure that all are appropriately vaccinated and protected from hepatitis B.

Cribs For Kids: prenatal (last trimester) up to 1 year

Moms Quit For Two grant funds Baby & Me Tobacco Free: mom enrolls prenatally and can be served up to 6 months after birth of baby

Health Planning Team Update

"Health care is vital to all of us some of the time, but **Public Health** is vital to all of us all of the time."
- Former U.S. Surgeon General C. Everett Koop

January 2024

Drug Overdose Prevention

One2One

- Second Harvest Food Bank (SHFB) Partnership: over the month of December, we provided food to 41 clients.
- Sheltered Inc. Partnership: over the month of December, we completed 1 housing referral.
- Department of Job and Family Services Clark County Partnership: over the month of December, we assisted 3 clients in completing applications for Medicaid and SNAP benefits.
- Needle Exchange stats from November 2023 (this data is always 1 month behind):
 - Client Visits: 231
 - Syringes Exchanged: 11,900
 - Narcan Kits Distributed: 130
 - Treatment Referrals: 2

Substance Abuse/DOP

- The new Regional Prevention and Linkage to Care Collaborative grant program kicked-off on January 1st.
 - Clark County is the Regional Prevention Lead for the southwest region that includes 17 counties. Throughout the month of January, the overdose prevention staff will be meeting with other counties within the region to discuss the goals of the grant and find ways to collaborate.
 - We have hired an additional health planner, Josie Marshall, to assist with this program. Josie started with CCCHD on January 8th.
- Over the past couple of months, we have connected with local high schools to provide Narcan and "naloxboxes."
 - Two naloxboxes have been provided to Tecumseh High School.
 - Two naloxboxes will be provided to Southeastern Local Schools.
 - The Mental Health and Recovery Board of Clark, Greene, and Madison purchased the boxes and provided them to CCCHD to distribute.

Adolescent Health

-  We have begun to develop relationships with youth-serving organizations and other community stakeholders to find willing volunteers to serve on the grant's advisory committee.
-  Program staff attended a Question, Persuade, Refer (QPR) training and have become part of the Mental Health Taskforce.

Safe Communities

- Over the past month we participated in several community events to increase awareness on the dangers of distracted driving and seat belt usage for both teens and adults.
- For a holiday event, we set up a resource table at the Tecumseh High School basketball game on December 22nd. The event included a prize wheel and questions about safe driving.
- We will be providing informational table tents to local restaurants and bars to display during the Super Bowl. The messaging will be focused on the dangers of impaired driving.
- We will be hosting a ThinkFast event at Tecumseh high school on January 20th.
- We are working on an initiative with GISA on the dangers of Drinking and Driving. A presentation by MADD, a family that has lost a loved one, Ohio State Patrol, and Director of Public Safety is being planned. The goal is to have the presentation during the month of Prom.

Motorcycle Ohio

- The schedule and recruitment of instructors for this year's classes is in the final stages and should be completed by the end of the month.
- The application for FY25 was submitted in December.

Tobacco

- Continued to foster new partnerships throughout the community.
- In partnership with Shawnee High School, we will be hosting an anti-vaping video contest that will run from January to April. More information about the contest and winners will be provided in future reports.
- We are collaborating with the Partners in Prevention's Youth Council to plan and implement a tobacco environmental project.
- Provided anti-vaping education to Cliff Park High School.
- Attended and participated in the newly formed cardiovascular hypertension workgroup as part of the Chronic Disease Taskforce.
- Provided cessation resources and information at the Clark County Library. We will continue to set up and provide resources at the library twice a month.
- Collaborating with Clark County Partners in Prevention to begin planning tobacco compliance checks for outside Springfield City.
- Partnering with the Nehemiah Foundation to promote tobacco education and cessation services within their vast network of faith-based organizations. Will be encouraging and potentially planning "Ask, Advise, Refer" trainings for faith leaders to reach disparate population.

Creating Healthy Communities

- 🛡️ In Partnership with Community Health Foundation's HEAL (Health Eating, Active Living) initiative, we will be hosting a strategic planning workshop on January 29th to discuss increasing outreach and community wide goals.
- 🛡️ We have begun to provide RedBib gift cards to WIC participants that have registered. There are a total of 75 \$200 gift cards available. We have given out over 30. We will continue to promote this program until all the gift cards have been claimed.
- 🛡️ December 31st marked the end of the 2023 grant cycle. The year has been very successful, and we look forward to continuing the great work in the next year.

Lead

- 🛡️ Met with Clark County Community and Economic Development to discuss partnership on lead abatement work in the county.
- 🛡️ Presented to Neighborhood Housing Partnership's Homebuyers Education Class on December 12.
- 🛡️ We have begun doing outreach and education at the Clark County Public Library twice a month. Education includes lead poisoning prevention and tobacco/vaping prevention and cessation.
- 🛡️ Continue to have lead poisoning prevention messaging promoted on social media.

Infant Vitality

- 🛡️ We continue to contract with AnnMarie Schmersal as our Infant Vitality/Start Strong Coordinator. Currently, funding for AnnMarie's position is provided by a portion of the new Preconception Health grant and a portion of the new Adolescent Health grant. We continue to seek additional funding to support the role and initiatives of the Start Strong Coalition.

Additional Updates

- 🛡️ Planning for the 2024 Minority Health Fair is underway. The event is scheduled for April 27th from 10am to 1pm. More information will be provided in future updates.

**Association of Ohio Health Commissioners
Public Affairs Committee**

January 12, 2023

9:30 am

AOHC Office with Zoom Option: <https://us02web.zoom.us/j/9424368099>

Agenda

1. Welcome and Introductions – **Ben Robison, Chair**
2. Approval of Minutes – 12/8/23
3. OPHAB Update – **Garrett Guillozet and Teresa Long**
 - a. Update on OPHAB activity
 - b. Draft rules for review:
 1. 3701-31-03,-04 Public Swimming Pools or Spas Comment Period Ends 2/3/2024 - **Stansbury**
4. Legislative Updates – **Ockerman**
 - a. 2024 legislative schedule
 - b. Bill activity since last meeting
 - i. [HB352](#) ACE STUDY COMMISSION (Rep. Rachel Baker, Rep. Sara Carruthers) To establish the Adverse Childhood Experiences Study Commission.
 - ii. Flavored tobacco ban/HB 258 – e-cigarette sales to minors – **Ed Johnson/Robert Hakes**
 - iii. Recreational marijuana
 - iv. Home visiting reimbursement – **workgroup members**
 - v. OPERS employer contribution rate increases – **Jason Orcena**
5. Bill Review – none since last meeting
 - b. Other Business
 - c. Members Only
 - a. Food Survey Assessment
 - b. State Budget Planning
 - c. Other
 - d. Next Meeting - February 9, 2024

Sec. 5.2320. The twenty-sixth day of October is designated as "Sudden Unexpected Death in Epilepsy Awareness Day." Sudden unexpected death in epilepsy (SUDEP) is the sudden, unexpected death of someone with epilepsy who was otherwise healthy.

Sec. 5.55. The month of April is designated as the "Month of the Military Child."

Sec. 9.17. (A) The amount for purposes of a provision of the Revised Code that references this section shall be as follows:

(1) Beginning on the effective date of this section through calendar year 2024, seventy-five thousand dollars;

(2) For each calendar year thereafter, the amount for the previous calendar year increased by three per cent as determined and published by the director of commerce.

Sec. 9.681. (A) As used in this section, "tobacco product" and "alternative nicotine product" have the same meanings as in section 2927.02 of the Revised Code.

(B) The regulation of tobacco products and alternative nicotine products is a matter of general statewide concern that requires statewide regulation. The state has adopted a comprehensive plan with respect to all aspects of the giveaway, sale, purchase, distribution, manufacture, use, possession, licensing, taxation, inspection, and marketing of tobacco products and alternative nicotine products. No political subdivision may enact, adopt, renew, maintain, enforce, or continue in existence any charter provision, ordinance, resolution, rule, or other measure that conflicts with or preempts any policy of the state regarding the regulation of tobacco products or alternative nicotine products, including, without limitation, by:

(1) Setting or imposing standards, requirements, taxes, fees, assessments, or charges of any kind regarding tobacco products or alternative nicotine products that are the same as or similar to, that conflict with, that are different from, or that are in addition to, any standard, requirement, tax, fee, assessment, or other charge established or authorized by state law;

(2) Lowering or raising an age requirement provided for in state law in connection with the giveaway, sale, purchase, distribution, manufacture, use, possession, licensing, taxation, inspection, and marketing of tobacco products or alternative nicotine products;

(3) Prohibiting an employee eighteen years of age or older of a manufacturer, producer, distributor, wholesaler, or retailer of tobacco products or alternative nicotine products from selling tobacco products or alternative nicotine products;

(4) Prohibiting an employee eighteen years of age or older of a manufacturer, producer, distributor, wholesaler, or retailer of tobacco products or alternative nicotine products from handling tobacco products or alternative nicotine products in sealed containers in connection with manufacturing, storage, warehousing, placement, stocking, bagging, loading, or unloading.

(C) In addition to any other relief provided, the court shall award costs and reasonable attorney fees to any person, group, or entity that prevails in a challenge to an ordinance, resolution, regulation, local law, or other action as being in conflict with this section.

(D) The general assembly finds and declares that this section is part of a statewide and comprehensive legislative enactment regulating all aspects of the giveaway, sale, purchase, distribution, manufacture, use, possession, licensing, taxation, inspection, and marketing of tobacco products and alternative nicotine products. The general assembly further finds and declares that the imposition of tobacco product and alternative nicotine product regulation by any political subdivision is a matter of statewide concern and would be inconsistent with that statewide, comprehensive enactment. Therefore, regulation of the giveaway, sale, purchase, distribution, manufacture, use, possession, licensing, taxation, inspection, and marketing of tobacco products and alternative nicotine products is a matter of general statewide concern that requires uniform statewide regulation. By the enactment of this section, it is the intent of the general assembly to preempt political subdivisions from the regulation of tobacco products and alternative nicotine products.

(E) This section does not prohibit a political subdivision from levying a

tax expressly authorized by state law, including the taxes authorized under Chapters 5739. and 5741. or sections 5743.021, 5743.024, 5743.026, 5743.321, 5743.323, and 5743.324 of the Revised Code.

Sec. 101.34. (A) There is hereby created a joint legislative ethics committee to serve the general assembly. The committee shall be composed of twelve members, six each from the two major political parties, and each member shall serve on the committee during the member's term as a member of that general assembly. Six members of the committee shall be members of the house of representatives appointed by the speaker of the house of representatives, not more than three from the same political party, and six members of the committee shall be members of the senate appointed by the president of the senate, not more than three from the same political party. A vacancy in the committee shall be filled for the unexpired term in the same manner as an original appointment. The members of the committee shall be appointed within ~~fifteen~~ forty-five days after the first day of the first regular session of each general assembly and the committee shall meet and proceed to recommend an ethics code not later than ~~thirty~~ sixty days after the first day of the first regular session of each general assembly.

In the first regular session of each general assembly, the speaker of the house of representatives shall appoint the chairperson of the committee from among the house members of the committee, and the president of the senate shall appoint the vice-chairperson of the committee from among the senate members of the committee. In the second regular session of each general assembly, the president of the senate shall appoint the chairperson of the committee from among the senate members of the committee, and the speaker of the house of representatives shall appoint the vice-chairperson of the committee from among the house members of the committee. The chairperson, vice-chairperson, and members of the committee shall serve until their respective successors are appointed or until they are no longer members of the general assembly.

The committee shall meet at the call of the chairperson or upon the written request of seven members of the committee.

(B) The joint legislative ethics committee:

(1) Shall recommend a code of ethics that is consistent with law to govern all members and employees of each house of the general assembly and all candidates for the office of member of each house;

(2) May receive and hear any complaint that alleges a breach of any privilege of either house, or misconduct of any member, employee, or candidate, or any violation of the appropriate code of ethics;

(3) May obtain information with respect to any complaint filed pursuant

The following transfers will be made after approval by the Board of Health at the January 2024 Board meeting.

Transfer: From the General Revenue fund to the Environmental Services fund (budgeted). \$30,000

Transfer: From the General Revenue fund to the Sewage Treatment fund (budgeted). \$20,000

Transfer: From the General Revenue fund to the Reproductive Health and Wellness fund (budgeted). \$22,788.64 (Program Income Only)

Note: The transfer being completed is strictly RHW program income. When CCCHD receives a check from the Local Public Health Collaborative the check is deposited into the Health Fund and then transferred to the correct fund.

The following advances will be made after approval by the Board of Health at the January 2024 Board of Health Meeting.

Advance: From the General Revenue fund to the Reproductive Health and Wellness fund (budgeted). \$15,000

Advance: From the General Revenue fund to the Mom's Quit for Two fund (budgeted). \$12,000

Section 9.10 **DRUG FREE WORKPLACE (OAC 123:1-76)**

- A. Use, sale, dispensing, possession or manufacture of illegal drugs, legal drugs that are not prescribed to the employee, marijuana, tetrahydrocannabinol, tobacco, nicotine, or ~~alcoholic beverages,~~ in any of their forms or presentations, on the premises of any Board of Health facility, in any of its vehicles or by an employee while on duty, is prohibited.
- B. Employees are prohibited from being under the influence of illegal drugs, legal drugs that are not prescribed to the employee, marijuana, tetrahydrocannabinol, tobacco, nicotine, or alcohol, or misusing drugs prescribed to the employee, during work hours or when they are representing the Health District at meetings or in the community. Employees and Health District owned equipment and containers under their control are subject to search and surveillance at any time while on Health District premises or while conducting Health District business.
- C. An employee who uses prescribed drugs that could impair his ability to perform job duties shall report this fact to his supervisor along with acceptable medical documentation. A determination shall then be made as to whether the employee shall be able to perform his job safely and properly.
- D. The Board of Health shall not employ or continue to employ an individual whose known current use of marijuana, tetrahydrocannabinol, or alcohol prevents him/her from performing the job duties or who constitutes a direct threat to the property or safety of himself/herself or others. The Board of Health shall not employ someone currently known to use illegal controlled substances, marijuana, tetrahydrocannabinol, tobacco, or nicotine. Whenever an applicant for employment is to be tested for such substances, he shall be informed of the test requirement in writing before it is administered.
- E. Procedure to follow when an individual is suspected to be under the influence of drugs or alcohol while on duty:
 1. An employee who suspects that another employee is under the influence of drugs or alcohol shall notify the employee's supervisor and the Health Commissioner or, in a case where the Health Commissioner is suspected, the President of the Board of Health.
 2. The supervisor shall observe the employee and determine through observation and questioning if the employee is ill, fatigued, under the influence of prescribed drugs, reacting to environmental substances such as smoke or fumes, or under the influence of illegal drugs, legal drugs that are not prescribed to the employee, marijuana, tetrahydrocannabinol, tobacco, nicotine, or alcohol, or misusing drugs prescribed to the employee. The supervisor (President) shall record his observations and any information gathered from the employee.
 3. If the supervisor (President) determines there is reason to believe the employee is under the influence of illegal drugs, legal drugs that are not prescribed to the employee, marijuana, tetrahydrocannabinol, tobacco, nicotine, or alcohol, or misusing drugs prescribed to the employee, he shall contact the Division Director or Health Commissioner (Board of Health).
 4. The division director or Health Commissioner (Board of Health) shall follow the procedure listed in Section 9, above. If the supervisor's observations are confirmed, the division director or Health Commissioner (Board of Health) under the direction of the Health Commissioner (President) shall require the employee to immediately submit to testing for the presence of drugs or alcohol.

5. Before testing, the employee shall be given a written statement documenting the objective facts leading to reasonable suspicion. The employee shall be given a chance to read and understand the reasons for requiring a test and to respond. Another employee may accompany the employee during such an explanation.
6. The employee shall lose no straight time pay during the ~~drug~~-testing process. Refusal to submit to a required test shall result in disciplinary action.

7. TESTING PROCEDURE:

- i. The testing shall be done by a laboratory certified by the State of Ohio as a medical and forensic laboratory that complies with the scientific and technical guidelines for federal drug testing programs.
- ii. Specimens shall be collected at the laboratory or hospital where the specimen is to be tested according to the laboratory's established procedures to ensure procedural integrity and a chain of evidence.
- iii. If the test results show the employee was under the influence of drugs or alcohol while on duty, the appropriate disciplinary action shall be administered (See Section 11 DISCIPLINE).
- iv. If the test results are negative, documentation regarding supervisors' observations and testing shall be destroyed.

- F. An employee experiencing problems resulting from drug or alcohol ~~abuse-use~~ or dependency shall seek counseling help. Counseling shall be kept confidential and shall have no influence upon performance appraisal.
- G. If the Health Commissioner has reasonable suspicion that an employee is dependent upon alcohol or controlled substances, he may require that an approved ~~alcohol/drug~~-rehabilitation program evaluate the employee. The employee shall be required to submit to the evaluation before his return to work. The employee shall be on paid administrative leave during the evaluation process, so long as he reports for the evaluation at the appointed time.
- H. If an employee is found to be dependent upon alcohol or controlled substances, he may use accrued leave during the treatment program and until he is released by his physician to return to work.
- I. Failure to follow the above procedures or cooperate with an established treatment plan may result in discipline, up to and including discharge.

Tobacco, Nicotine, Marijuana & Tetrahydrocannabinol Policy

All Divisions of CCCHD

Purpose:	With a mission to lead and innovate by working with the community to achieve the goals of public health: prevention, promotion, and protections; it is incumbent upon the CCCHD to address the community’s leading cause of preventable disease and premature death. Therefore, the purpose of this policy is to control the use of tobacco and nicotine products and Marijuana and Tetrahydrocannabinol products by CCCHD employees, contractors, and Board of Health members. The primary objective of the policy includes facilitation of a healthier workforce, reduction of personnel costs resulting in taxpayer savings and demonstration of leadership.
Scope:	This policy applies to CCCHD employees, contractors, Board of Health members and includes all tobacco, nicotine, <u>marijuana, and tetrahydrocannabinol</u> products. Unless otherwise noted, this policy prohibits the use of any product that is made from or derived from tobacco and is intended for human consumption or is likely to be consumed, whether smoked, heated, chewed, absorbed, dissolved, inhaled, or ingested by any other means including but not limited to, a cigarette, a cigar, pipe tobacco, chewing tobacco, snuff, or snus. The policy also includes, but is not limited to, an electronic smoking device and any component or accessory used in the consumption of a tobacco product, such as filter, rolling papers, pipes, or liquids used in electronic smoking devise, whether they contain nicotine. <u>Use, sale, dispensing, possession, or manufacture of illegal drugs, legal drugs that are not prescribed to the employee, marijuana, tetrahydrocannabinol, tobacco, or nicotine in any of their forms or presentations is prohibited.</u> Violations of policy provisions will be addressed through appropriate disciplinary action which may include termination without prior progressive discipline.
Responsibility	All Divisions of CCCHD
References:	BOH Resolution R 45-16 passed 04/21/2016 and <u>BOH Resolution R xx-24 passed 01/18/2024</u>

Procedure: New applicants and employees hired after July 1, 2016

- A. Applicants for employment at the CCCHD will be asked about their use of tobacco, nicotine, marijuana, and tetrahydrocannabinol products on the pre-employment application or during the pre-interview. Applicants are required to sign a statement attesting to the fact that they do not use tobacco, nicotine, marijuana, and tetrahydrocannabinol products.
- B. Applicants who declare use of tobacco, nicotine, marijuana, or tetrahydrocannabinol products will not be considered for employment. Applicants may reapply for a position after they have been tobacco, nicotine, marijuana and/or tetrahydrocannabinol free for ninety (90) days.
- C. Employees hired after July 1, 2016, shall not use nicotine, tobacco, marijuana, or tetrahydrocannabinol products at any time. Upon reasonable suspicion that such an employee is using a nicotine, tobacco, marijuana, or tetrahydrocannabinol product, they shall be subject to mandatory testing. A positive test shall be sufficient cause for termination.
- D. Current employees hired after July 1, 2016, and unaffected by other requirements will not be impacted by this new applicant hiring provision unless they leave the organization and later apply for re-employment.

Procedure: Current employees and officials as of July 1, 2016

- A. Current employees and contractors shall not use tobacco, nicotine, marijuana, or tetrahydrocannabinol products while on duty (including paid or unpaid breaks on the premises) or while on paid administrative leave. Those employees and contractors may use nicotine replacement therapy products. Employees have ninety (90) days from the effective date of this policy to comply with this provision.
- B. Current employees are encouraged to participate in cessation programs sponsored by the CCCHD or other approved programs. These programs include Nicotine Replacement Therapy.

Springfield, OH 45503

Clark County Combined Health District

Personnel Policy, Appendix 4

Tobacco, Nicotine, **Marijuana & Tetrahydrocannabinol** Policy

All Divisions of CCCHD

- C. Current Board of Health members and employees serving on the Core Management Team or serving as Smoke-Free Ohio inspectors shall not use tobacco, nicotine, **marijuana, or tetrahydrocannabinol** products, including nicotine replacement therapy products noted above, at any time and have one (1) year to comply with this provision. Thereafter, upon reasonable suspicion that such an official or employee is using tobacco, nicotine, **marijuana, or tetrahydrocannabinol** product, they shall be subject to mandatory testing.
- D. To obtain a promotion, current employees who are not nicotine and tobacco free must agree to participate in a CCCHD approved smoking cessation program every six (6) months until they are nicotine and tobacco free.
- E. Employees who are promoted into a position referenced in part C are subject to the provisions of part C and D. Accordingly, these employees must not only participate in an approved cessation program, but they must also cease using tobacco, nicotine, **marijuana, or tetrahydrocannabinol** products within one (1) year of the promotion.

Procedure Maintenance: This procedure will be reviewed annually and revised as needed by the Administrative Assistant to the Health Commissioner position.

**MEMORANDUM OF UNDERSTANDING
BETWEEN BON SECOURS MERCY HEALTH, INC.
AND CLARK COUNTY COMBINED HEALTH DISTRICT**

1. Parties. This Memorandum of Understanding (hereinafter referred to as “MOU”) is made and entered into by and between Bon Secours Mercy Health, Inc. (“BSMH”) (on behalf of itself, its affiliates, and its facilities) with its principal place of business located at 1701 Mercy Health Place Cincinnati, OH 45237 and Clark County Combined Health District "CCCHD", an Ohio not-for-profit agency, with its principal place of business located at 529 E. Home Rd. Springfield, OH 45503.

2. Purpose. The purpose of this MOU is to memorialize the terms and conditions agreed upon by the parties with respect to the following: Haitian Creole Clark County Community Outreach Grant.

3. Provision of Services. BSMH and CCCHD agree to the following terms relating to the provision of services:

- Creation of Health Literacy & Equity, Community & Job Navigation and Social Determinants of Health videos, materials and support documentation translated appropriately to meet the needs of the population. (Quantity: 7 – 10 videos, any necessary support documentation identified.)
- Revisiting the need for a community ID program.
- Health screening, immunization, mental, physical and/or communicable disease screenings.
- Outreach to local Faith Communities with Haitian Creole populations and development of supports in this space.

4. Other Terms. BSMH and CCCHD agree to the following terms:

- Health Literacy, Equity and Community Navigation..... \$100,000
- Community ID program and translation barriers..... \$25,000
- Outreach, Health Screening, Immunization, mental, Physical and/or communicable disease screening and navigation \$100,000

5. Definitive Agreement. BSMH and CCCHD agree to work together in good faith to execute a mutually agreed upon Definitive Agreement within the next thirty (30) days to establish terms as outlined herein.

6. Term. This MOU shall commence on the Effective Date and continue until terminated as set forth in Section 7 hereof. **January 1, 2024 – December 31, 2024**

7. Termination. This MOU shall automatically terminate upon the occurrence of any of the following events:

- (a) Expiration of the term of the agreement, if any.
- (b) Execute of more detailed definitive agreements between the parties.
- (c) Thirty (30) days prior written notice from one party to the other; or
- (d) Written notice from either party that the other has failed to meet any of the requirements of this MOU.

8. General Provisions

- A. Amendments. Either party may request changes to this MOU. Any changes, modifications, revisions, or amendments to this MOU which are mutually agreed upon by and between the parties to this MOU shall be incorporated by written instrument, and effective when executed and signed by all parties to this MOU.
- B. Applicable Law. The construction, interpretation and enforcement of this MOU shall be governed by the laws of the State of Ohio. The courts of the State of Ohio shall have jurisdiction over any action arising out of this MOU and over the parties, and the venue shall be Hamilton County, State of Ohio.
- C. Entire Agreement. This MOU represents the entire and integrated agreement between the parties and supersedes all prior negotiations, representations, and agreements, whether written or oral.
- D. Severability. Should any portion of this MOU be judicially determined to be illegal or unenforceable, the remainder of the MOU shall continue in full force and effect, and either party may renegotiate the terms affected by the severance.
- E. Confidentiality. The parties agree that the contents and nature of the discussions between BSMH and NAME relating to this MOU are strictly confidential.
- F. Compliance. Both parties shall ensure alliance activities are conducted in compliance with all applicable laws, rules, and regulations. If any provision of this MOU violates any statute or rule of law, it will be considered modified to conform to that statute or law.

9. Signatures. In witness whereof, the parties to this MOU through their duly authorized representatives have executed this MOU on the days and dates set out below, and certify that they have read, understood, and agreed to the terms and conditions of this MOU as set forth herein.

The effective date of this MOU is the date of the signature last affixed to this page.
